# Epson PowerLite E24

EPSON POWERLITE E24

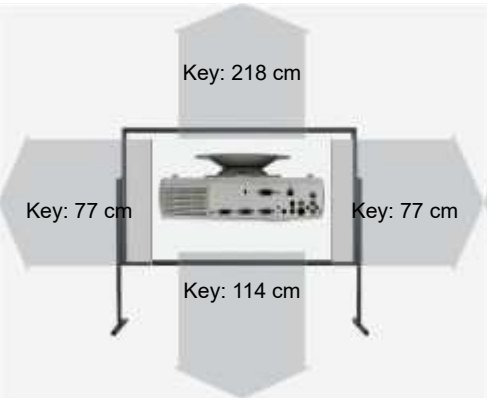

| | |
|---|---|
| Brief Introduction<br>Beta 2.5 | The Epson PowerLite E24 is an LCD projector with XGA 1024 x 768 resolution and a contrast ratio of 15000:1. The manufacturer specifies a lamp life of 12,000 hours, which equates to over 16.4 years at 2 hours per day. Files can be played directly using the integrated media player. The horizontal and vertical keystone correction allows the projector to be positioned very freely. The brightness of 3600 ANSI lumens allows for an image width of 658 cm. The projector can also be used in slightly brighter rooms with a smaller image width (we recommend max. 439 cm). A smartphone with an MHL connection can be connected directly to the MHL/HDMI port and transmit 1080p/60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Furthermore, the projector can play 1080P without any problems. |
| Display Type | 3 x 0,67" LCD TFT Panel<br>XGA 16/9 Liquid Crystal Display |
