A quick look at the PowerLite L270F: The Epson laser LCD projector offers 5,200 ANSI lumens, a contrast ratio of 5,000,000:1, and an HDTV resolution of 1920 x 1080. Manufacturer Epson specifies a lamp life of 20,000 hours, which equates to over 13.7 years of use at four hours per day. Horizontal and vertical keystone correction provides flexibility during setup. An image width of up to 733 cm is possible; if the image width is smaller (we recommend a maximum of 489 cm), even rooms with ambient light are no problem. The model supports AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). It is also compatible with Full HD 1080p and 4K (compressed).
