

Eroshoo P90

EROSHOO P90

Brief Introduction

Beta 2.5

The standard portable Eroshoo P90 LED LCD projector has 540 Ansi-Lumen, a contrast of 10000:1 and a HDTV 1920 x 1080 resolution. It is an LED projector with 50000 hours of light life, which is equivalent to over 34.2 years at 4 hours per day. As Eroshoo specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 236 cm is possible. In room light, however, the image should be smaller. We recommend max. 157 cm. Thanks to the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube as well as games and other interactive content. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Furthermore, the projector can play 1080P and 4K (compressed) without any problems and can even project Blu-rays onto the ceiling thanks to the 360° projection.
