

Everest VE600X

EVEREST VE600X

A brief introduction to the VE600X: The Everest Laser LCD projector offers 6500 Ansi-Lumen, a contrast of 5000000:1 and an XGA 1024 x 768 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which is over 13.7 years with a daily viewing time of 4 hours. With the lens shift function, the projector can be positioned very freely. 6500 Ansi lumens ensure that a picture width of 702 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 468 cm. 1080P playback is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection.
