

FLICKERPRO H1

FLICKERPRO H1

Introducing the H1: The FLICKERPRO LED LCD projector offers 700 ANSI lumens and HDTV 1920 x 1080 resolution. The LEDs give the projector a light lifespan of up to 30,000 hours, which, at 4 hours of viewing per day, would be over 20.5 years. 700 ANSI lumens ensure that a picture width of 269 cm is possible. However, if room light is present, the picture should not be wider than 179 cm. The projector has Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Video signals 1080P and 4K (compressed) are also no problem for the projector. The operating noise of only 29 decibels makes projection quiet.
