GINCSRI X10

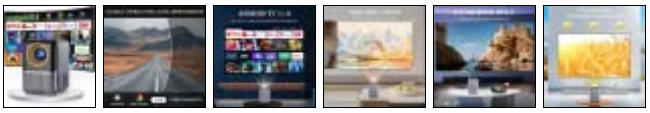

Brief Introduction Beta 2.5	The GINCSRI X10 Game-portable LED LCD projector has 350 Ansi-Lumen and an HDTV 1280 x 720 resolution. Manufacturer GINCSRI specifies a lifespan of 30,000 hours, which would be over 20.5 years with 4 hours of viewing per day. 350 ANSI lumens ensure that a picture width of 190 cm is possible. However, if room light is present, the picture should not be wider than 127 cm. The model recognises Airplay and Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via the Bluetooth function. Furthermore, the projector can play 1080P without any problems.
Display Type	1 x LCD Panel HDTV 16/9 Liquid Crystal Display
