HIPPUS M11

The HIPPUS M11 LED LCD projector has 500 Ansi lumens and an HDTV 1920 x 1080 resolution. The manufacturer HIPPUS specifies a service life of 60,000 hours, which is equivalent to over 41.1 years at 4 hours per day. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector can illuminate a picture width of up to 227 cm thanks to its 500 Ansi lumens. In room light, however, the picture width should ideally be less than 151 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Video signals 1080P and 4K (compressed) are also no problem for the projector.

Brief Introduction
Beta 2.5

Display Type	1 x LCD TFT Panel HDTV 16/9 Liquid Crystal Display	
Ansi-Lumen	Projector: 500	Screen: 222 Lux (200 cm Screen width)
