

Homoyoyo HMF42

HOMYOYO HMF42

The Homoyoyo HMF42 game portable LCD projector has 120 Ansi lumens, a contrast of 1000:1 and a WVGA 800 x 480 resolution. The integrated media player allows files to be played directly. As Homoyoyo specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. A picture width of up to 111 cm is possible. In room light, however, the image should be smaller. We recommend max. 74 cm. As the projector optionally recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Playing 1080P is also no problem for the projector.
