InFocus Genesis IN114BB

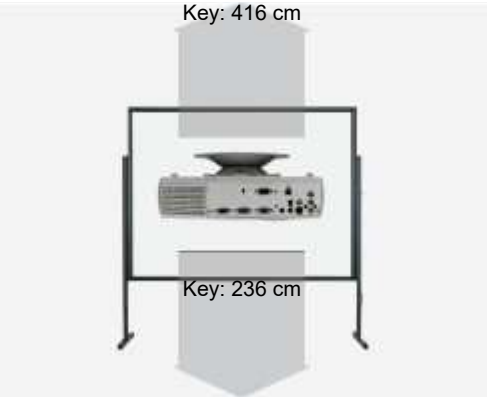

Brief Introduction Beta 2.5	The InFocus Genesis IN114BB model is a DLP projector with XGA 1024 x 768 resolution and a contrast of 30000:1. The lamp life is specified by the manufacturer as 10000 hours, which is over 13.7 years with a daily viewing time of 2 hours. Thanks to the brightness of 3800 Ansi lumens, a picture width of 537 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 358 cm). It is also Full HD 1080P and 3D compatible. The operating noise of just 30 decibels makes the projection quiet. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither original nor replica.
