

InFocus IN0004SL

INFOCUS IN0004SL

Brief Introduction

Beta 2.5

The IN0004SL 3D DLP projector from InFocus has 4000 Ansi lumens, a contrast of 30000:1 and an XGA 1024 x 768 resolution. The lamp of the projector is specified with a lamp life of 15000 hours, which is over 20.5 years with a daily viewing time of 2 hours. An image width of up to 551 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 367 cm. Playing 1080P and 3D is also no problem for the projector. The operating noise of just 27 decibels makes the projection quiet.
