InFocus IN1044

INFOCUS IN1044

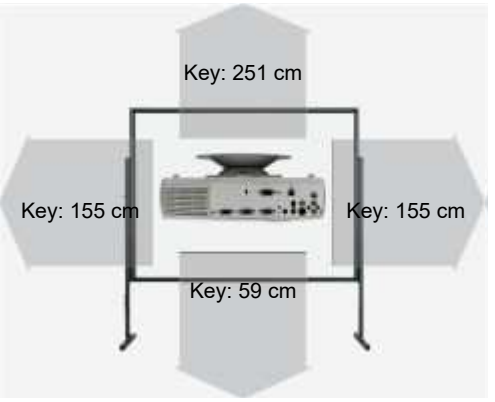

Brief Introduction Beta 2.5	The IN1044 at a glance: The InFocus Standard Portable 3D LCD Projector offers 4800 ANSI lumens, a contrast ratio of 50000:1, and XGA 1024 x 768 resolution. The lamp has a service life of up to 20,000 hours, which is over 27.4 years when used for two hours a day. The integrated media player can play files directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. An image width of up to 603 cm is possible; if the image width is smaller (we recommend max. 402 cm), even rooms with residual light are no problem. Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, meaning that all currently available Blu-ray formats can be recognized by the projector.
Display Type	3 x 0,63" LCD TFT Panel XGA 4/3 Liquid Crystal Display
