InFocus IN1046

INFOCUS IN1046

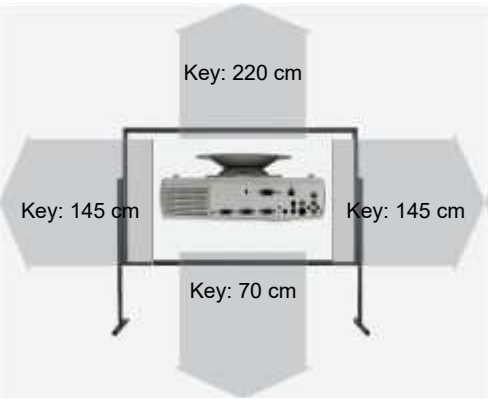

Brief Introduction Beta 2.5	A brief introduction to the IN1046: The InFocus standard portable 3D LCD projector offers 4600 Ansi lumens, a contrast of 50000:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies a lamp life of 20000 hours, which converts to over 27.4 years at 2 hours per day. The integrated media player allows files to be played directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. Thanks to the brightness of 4600 Ansi lumens, a picture width of 689 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 459 cm). It is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector.
