InFocus IN1100

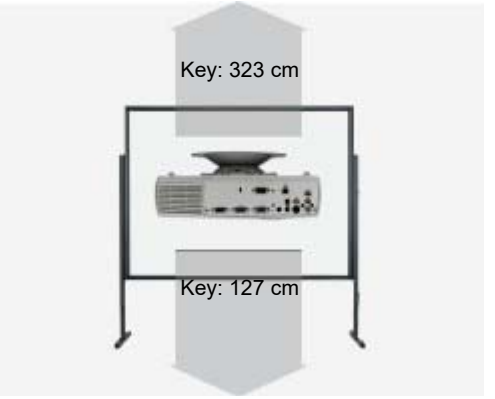

INFOCUS IN1100

Brief Introduction Beta 2.5	A brief introduction to the InFocus IN1100. The micro-portable DLP projector has an XGA 1024 x 768 resolution and a contrast of 1800:1. 2100 Ansi lumens ensure that a picture width of 399 cm is also possible. However, if room light is available, the picture should be a maximum of 266 cm wide. Playing 1080P is also no problem for the projector. On the market since 2008, the model is no longer offered by the manufacturer InFocus, but is still very popular in our projector database.
