InFocus IN5302

INFOCUS IN5302

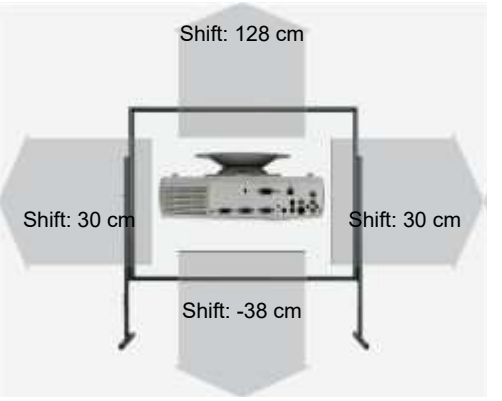

Brief Introduction Beta 2.5	A brief introduction to the IN5302: The InFocus stationary BrilliantColor DLP projector offers 4000 Ansi lumens, a contrast of 2300:1 and an XGA 1024 x 768 resolution. The integrated media player can play files directly. The built-in lens shift function provides freedom when setting up. Thanks to the brightness of 4000 Ansi lumens, a picture width of 551 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 367 cm). The model is also Full HD 1080P compatible. With only 29 decibels of operating noise, the model is already very quiet compared to others. The projector was launched in 2009 and is no longer sold by the manufacturer.
