

InFocus IN5533/L

INFOCUS IN5533/L

A brief introduction to the InFocus IN5533/L. The stationary DLP projector has a WXGA 1280 x 800 resolution and a contrast of 2000:1. The integrated media player can play files directly. The projector also offers a lens shift function that makes image adjustment childs play. The projector can illuminate images up to 787 cm wide thanks to its 6000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 525 cm. Even 1080P video signals are no problem for the projector. At just 29 decibels, the device is one of the quieter projectors. The projector was launched in 2010 and is no longer sold by the manufacturer.

Brief Introduction

Beta 2.5

Display Type

1 x 0,65" DC DLP Chip
