InFocus INL154

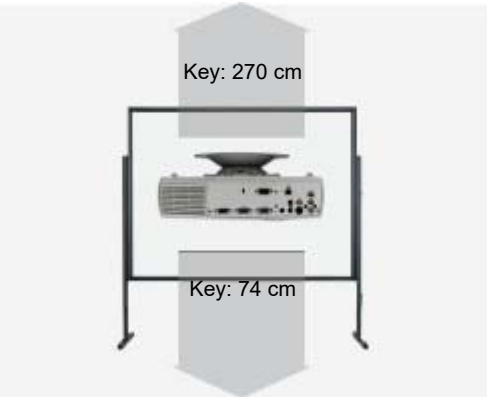

INFOCUS INL154

Brief Introduction Beta 2.5	A brief introduction to the InFocus INL154. The DLP laser projector has an XGA 1024 x 768 resolution and a contrast of 2000000:1. The manufacturer InFocus specifies a service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. 3500 Ansi lumens ensure that a picture width of 515 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 343 cm. Video signals 1080P and 3D are also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. The projector is very quiet compared to other projectors with an operating noise of 30 decibels.
