InFocus INL2168

INFOCUS INL2168

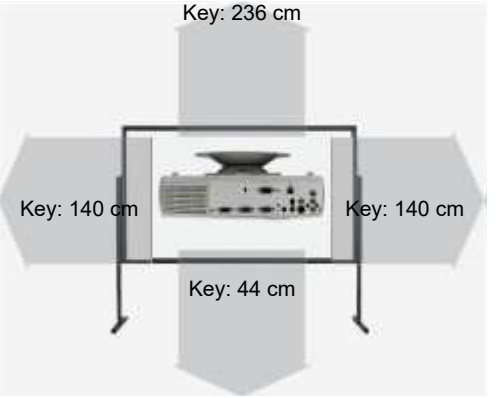

Brief Introduction Beta 2.5	The standard portable INL2168 3D laser DLP projector from InFocus has 4500 Ansi lumens, a contrast of 300000:1 and an HDTV 1920 x 1080 resolution. The lifespan is 30000 hours due to the laser, which is over 20.5 years if enjoyed for four hours a day. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate images up to 682 cm wide thanks to its 4500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 455 cm. Video signals 1080P and 3D are also no problem for the projector. At just 30 decibels, the device is one of the quieter projectors.
