JVC DLA HD350/BE/WE/U

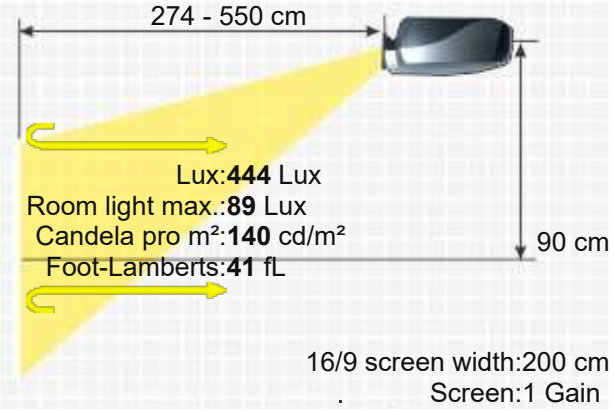

A brief introduction to the DLA HD350/BE/WE/U: The JVC high-end home cinema DILA projector offers 1000 Ansi lumens, a contrast of 30000:1 and HDTV 1920 x 1080 resolution. Including a lens shift function, which provides freedom during installation. An image width of up to 321 cm is possible as the projector has 1000 Ansi lumens. However, if room light is available, the image should be a maximum of 214 cm wide. Playing 1080P is also no problem for the projector. The operating noise of just 19 decibels makes the projection quiet. This model is no longer offered by JVC, but is still very popular in our projector database.
