

JVC DLA-NZ7 B/W

JVC DLA-NZ7 B/W

A brief introduction to the DLA-NZ7 B/W: The JVC 3D Laser DILA projector offers 2200 Ansi-Lumen, a contrast of 40000:1 and a UHD (4K+2K) 4096 x 2160 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. With the lens shift function, the projector can be positioned very freely. The projector can illuminate an image width of up to 443 cm thanks to its 2200 Ansi lumens. In room lighting, however, the picture width should ideally be less than 295 cm. The model is also compatible with Full HD 1080P and 4K as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector. This model is no longer offered by JVC, but is still very popular in our projector database.
