The Kindermann model Omega KS 800 is an LCD projector with SVGA 800 x 600 resolution and a contrast of 200:1. 800 Ansi lumens ensure that a picture width of 246 cm is also possible. However, if room light is available, the picture should be a maximum of 164 cm wide. This model is no longer offered by Kindermann. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
