

Kindermann KX 100

KINDERMANN KX 100

Brief Introduction

Beta 2.5

A brief introduction to the KX 100: The Kindermann LCD projector offers 1300 Ansi lumens, a contrast of 400:1 and an XGA 1024 x 768 resolution. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate a picture width of up to 314 cm thanks to its 1300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 209 cm. This model is no longer available from Kindermann.
