Kodak DP1050 *Ultra* Digital Projector

Simply Brilliant. Get incredible XGA resolution with exceptionally rich color and amazing detail. Use Kodak's exclusive Image Manager to quickly and easily select the very best projection for your presentation. You simply push a button to tell us what you are projecting – photos, graphics or spreadsheets – and we do the rest. Outstanding color reproduction that only Kodak can deliver. With 650 lumens, it projects an *ultra bright* image that stands out even in a well-lit room.

FEATURES/BENEFITS

Built To Travel
The KODAK DP1050 is just under 10 lbs. and will fit easily under your airline seat. It has an extra-small footprint – about the size of most laptops. With color-coded cables set up is a snap. Traveling internationally? The DP1050 does not need a bulky voltage converter.

Ultra Bright - Details Shine Through
The DP1050 provides vibrant XGA (1024 x 768) resolution. The true 650 ANSI lumens brightness delivers crisp, easy-to-read text and makes your photos and graphics pop. Our unique 2,000-hour cool-running lamp stays bright even if this projector runs 8 hours a day for nearly 8 months.

Incredible Pictures
The DP1050 uses award-winning Digital Light Processing (DLP) technology to provide vivid, high resolution presentations with true-to-life reproduction of pictures, graphics, text and full-motion video.

1.5x Zoom
Quickly and easily enlarge or reduce your projected image.

Kodak's Exclusive Image Manager
Push the button and we'll do the rest. We've made it so easy to get the best possible result – whatever you want to project. Kodak is the obvious choice for pictures with stunning clarity and realistic color. You'll also get eye-popping graphics and clear, readable spreadsheets. It's easy. No more high-tech tweaking. Relax. You'll look great!

Powerful Control At Your Fingertips
Easily control the projector *and* your laptop with our powerful remote. Just a few simple clicks allow you to customize the "zap" buttons on the remote. Pop out of your presentation into another application, or pop back to the beginning of a section. With the touch of a button, turn the remote into a pointing device. Easy to use, plus extra control and options for the savvy presenter.

TV Tuner
The DP1050 has an available snap-in TV tuner that lets you connect directly to broadcast signals from a cable or satellite receiver.

Intuitive Menu
An easy-to-use menu system allows control of all functions of the projector with a click of your mouse.

Super Sound
The DP1050 features a high-performance 10-watt loudspeaker with an optional connection to your external sound system.

KODAK Projector/Digital Camera Presentation Kit
Customize your presentations in minutes. Snap a digital picture of your client or their product and pop it into your presentation on the spot with a KODAK Digital Camera. We've combined our new DP1050 with one of our award-winning cameras to provide a fast and easy solution. You can even plug the camera directly into your projector for a pictures-only slide show. The result? Bigger, better and brighter pictures. With the same exceptional quality you've come to rely on from Kodak. *See your dealer for details.*

KODAK DP1050 *Ultra* Digital Projector
