LG ProBeam BU60PSM

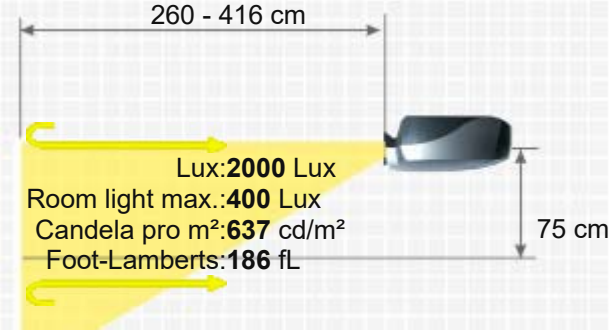

EAN/UPC:8806091288356

The LG ProBeam BU60PSM stationary 3D laser DLP projector has 6000 Ansi lumens, a contrast of 3000000:1 and a WQXGA 2560 x 1080 resolution. The lifespan is 20000 hours due to the laser, which converts to over 13.7 years at 4 hours of use. The integrated media player can play files directly. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. An image width of up to 675 cm is possible, if the image width is smaller (we recommend max. 450 cm), rooms with residual light are also no problem. The model recognizes Miracast screen mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector. The model built in 2023 is no longer offered by LG.

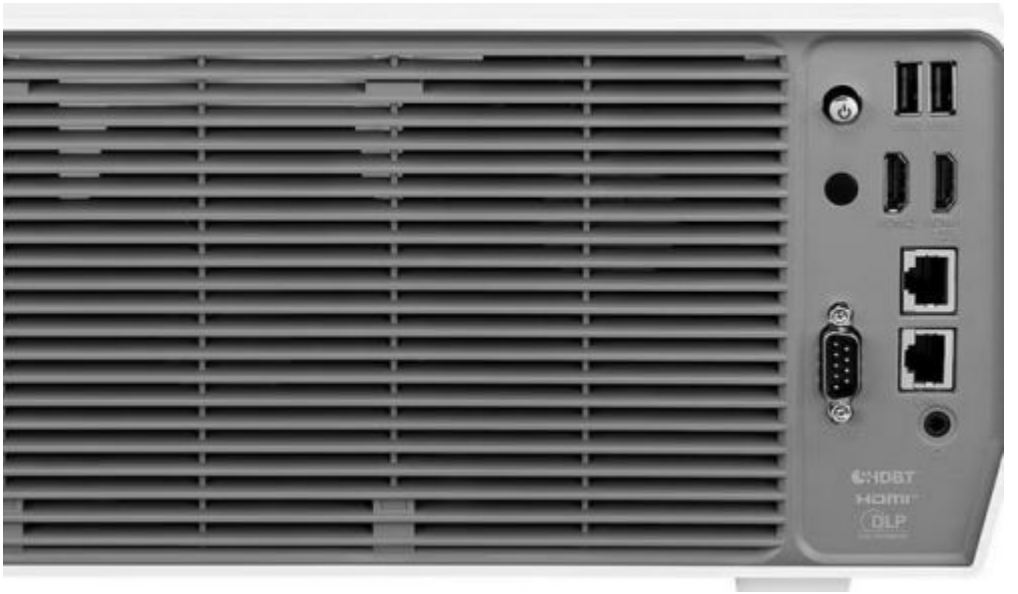

Brief Introduction
Beta 2.5

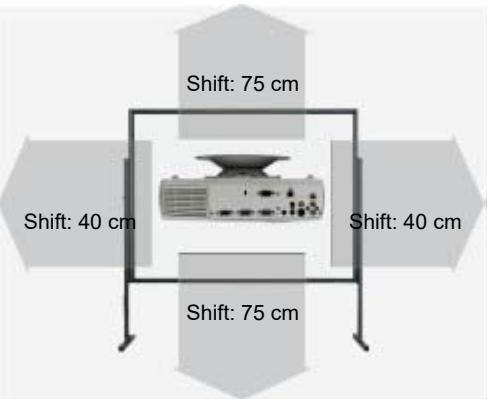

Display Type	1 x DLP Chip WQXGA 4/3 Ti Digital Light Processing Chip		
Ansi-Lumen	Projector: 6000	Screen: 2000 Lux (bei 200 cm Screen)
