Lightware Traveler

Brief Introduction Beta 2.5	A brief introduction to the Lightware Traveler. The standard portable DLP projector has an XGA 1024 x 768 resolution and a contrast of 300:1. As Lightware specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. An image width of up to 257 cm is possible. In room light, however, the image should be smaller. We recommend max. 171 cm. It is no longer offered by the manufacturer Lightware.
