

Megapower ML3

MEGAPOWER ML3

A brief introduction to the ML3: The Megapower game portable DLP projector offers 80 Ansi lumens, a contrast of 2000:1 and a WVGA 854 x 480 resolution. Thanks to the brightness of 80 Ansi lumens, a picture width of 91 cm is possible. In room light, the picture should be max. 61 cm wide. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. Even 1080P video signals are no problem for the projector. It was launched in 2018 and is no longer offered by the manufacturer Megapower, but is still very popular in our projector database.

0,3 " DMD Chip
WVGA 16/9 Ti Digital Light Processing Chip

Projector	80	36 Lux (bei 200 cm Screen)
	2000:1	2000:1
