miroir M700S

MIROIR M700S

Brief Introduction Beta 2.5	A brief introduction to the M700S: The miroir micro-portable LED DLP projector offers 600 Ansi lumens and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 20000 hours, which is over 13.7 years if enjoyed for four hours a day. Includes an integrated media player for direct playback of files. 249 cm picture width, the projector will be able to illuminate well. However, if room lighting is available, the image width should ideally not exceed 166 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P compatible.
Display Type	1 x DLP Chip HDTV 16/9 Ti Digital Light Processing Chip
Ansi-Lumen	Projector: 600 / Screen: 267 Lux (bei 200 cm Screen)
