DH1011

Utilising the latest DLP® technology, the DH1011 delivers exceptional crystal-clear Full HD native resolution and immersive 3D visuals.

Producing a stunningly bright image with perfectly balanced vivid colour, crystal clarity and exceptional light and shade detail only possible with a high contrast projector. The DH1011 is perfect for projecting a broad range of applications including technical, advertising media and medical uses where detail matters.

Installed or on the move using the included carry bag, the versatile DH1011 has a powerful on-board 16W stereo speaker, HDMI connectivity and energy saving features including ECO mode and auto power off saving you both time and money for hassle-free, long-lasting projection.

Lights on viewing

The DH1011 produces fantastic images even when the lights are on with 3000 Lumens. Designed to be used in ambient light the high brightness DH1011 can be used without even dimming the lights.

Full HD 1080p

Sharper more detailed projection with 1920 x 1080p pixels, perfect for watching Blu-ray movies without downscaling or compression.

Full 3D

Using the inherent speed of DLP technology, The Optoma DH1011 Full 3D projector can display true 3D content form almost any 3D display device, including 3D Blu-ray, PS3, Xbox and Sky3D.

Dynamic Black

Dynamic black smoothly adjusts the lamp output automatically, based on the brightness information of each frame; to create a stunning 13,000:1 contrast ratio. Bright scenes are crisp and clear, while dark scenes remain detailed with deep blacks which gives exceptional light and shade detail.

Amazing Colours

The DH1011 incorporates BrilliantColor™ multi-colour processing technology to bring stunning, vibrant colour to your screen. You can even fine tune colours for ultimate precision.

Color Guarantee

We are so confident that the DH1011 image colour quality will remain as good as the day you bought it that Optoma will guarantee it for five years.

Audio WOW - SRS WOW HD™ Surround Sound

Embrace the WOW factor with SRS WOW HD surround sound audio processing to create a more natural audio experience with a deep, rich bass response. Easy to set up without the need for costly external speakers the DH1011 offers exceptional sound quality with powerful on-board 16W stereo audio.

SRS WOW HD Features

- Stereo enhancement which improves dynamic audio performance
- Sculpted bass response for maximum thump from the on-board speakers
- More natural audio with a wider sound field

RS232 Control

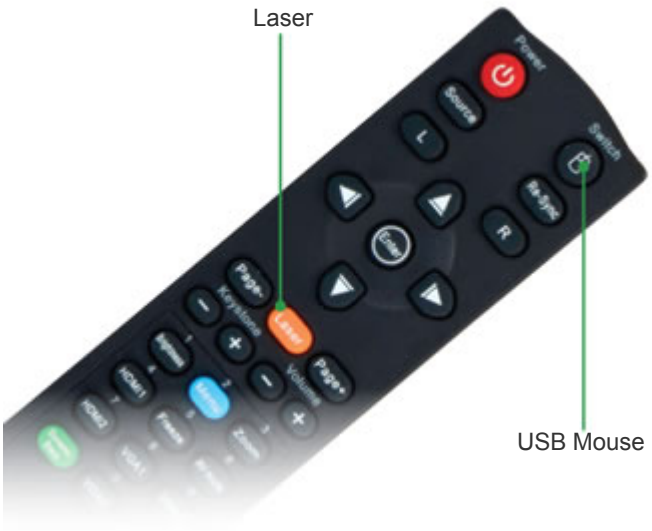

RS232 Compatibility - The DH1011 comes with an extensive RS232 command set making it simple and easy to control with any control system.

AMX Compatibility - Dynamic Discovery

Protocol is incorporated into the DH1011. This feature allows for easy installation with AMX control systems.

USB Remote Mouse and Laser

Control your presentation with dedicated left and right click mouse buttons on the included remote control. You can also point to things on the screen without having to stand in front of the projected image with the built in laser pointer (USB cable required).

Auto Power Off

There may be instances when the projector is left running when not in use. To help save energy if the projector is left running and no source is detected, the "Auto Power Off" feature automatically turns off the projector after a set period of time.

Eco AV Mute

Stay in control of your presentation with the Eco AV mute feature. Direct your audience's attention away from the screen by blanking the image when no longer needed. This also instantly reduces the power consumption to 30%, further prolonging the life of your lamp

Long Lamp Life

Reduce the total cost of ownership with a lamp life of up to 6000 hours. The DH1011 uses Dynamic Black technology to significantly lower the cost and number of lamp replacements.

We know that improving our products is the best way to reduce our impact on the environment. That's why at Optoma we design our products to have a long usable life, use fewer materials, ship with the minimum packaging and be free of all possible toxic substances. Naturally, energy efficiency and being recyclable are built in at the design stage. With each new product, we strive towards minimising our environmental impact.

[1]Brightness will vary depending on selected projector mode, environmental conditions and usage. As is common with all lamp based projectors, brightness will decrease over the lamp lifetime. [2]Typical lamp life achieved through testing. Will vary according to operational use and environmental conditions. [3]Optoma guarantees that in normal use, Optoma DLP® colour quality will be indistinguishable from when new. Exclusions: (a) Guarantee is voided if the projector is subject to damage through misuse. (b) Guarantee may be void in industrial or commercial entertainment environments where dust or smoke is excessive (c) Guarantee will not apply if lamp brightness is below 50% due to wear or if the projector is not working due to other faults. (d) Over time worn lamps within all projector types will show a slight colour variance. Copyright © 2012, Optoma Europe Ltd.
