

Optoma HD803 LV

OPTOMA HD803 LV

The high-end home cinema HD803 LV DLP has 2000 Ansi lumens, a contrast of 7000:1 and an HDTV 1920 x 1080 resolution. The projector will be able to illuminate a 454 cm picture width well. If room light is available, however, the picture width should ideally not exceed 303 cm. Even 1080P video signals are no problem for the projector. It was launched in 2008 and is no longer offered by the manufacturer Optoma, but is still very popular in our projector database.
