Optoma ML750ST

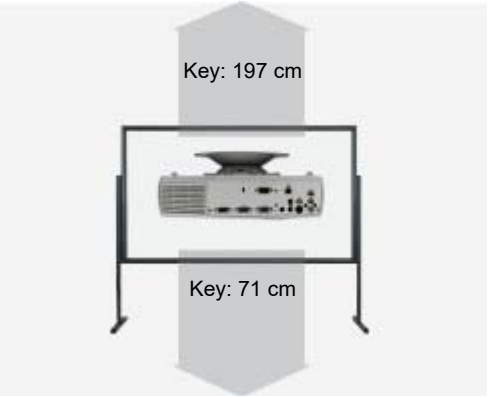

OPTOMA ML750ST

Brief Introduction Beta 2.5	The Optoma ML750ST LED BrilliantColor DLP projector has 800 Ansi lumens, a contrast of 20000:1 and a WXGA 1280 x 800 resolution. Due to the LEDs, the projector is specified with 20000 hours of light life, which is over 13.7 years if enjoyed for four hours a day. The projector also offers an integrated media player that can be used to play files directly. Thanks to the brightness of 800 Ansi lumens, a picture width of 287 cm is possible. In room light, the picture should be max. 191 cm wide. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. It was launched on the market in 2015 and is no longer offered by the manufacturer Optoma, but is still one of the most popular projectors.
