PT100 - PlayTime Projector

Fun Outside the Box

The easy to use PT100 provides portable big screen fun when connected to game consoles, computers, video players and even hand-held devices. Project a 60" widescreen image onto a wall or ceiling from less than 10 feet away. Instantly turns on and off and runs at a cool temperature so it can be conveniently moved from room to room. The PT100's low power consumption is about 10% that of a 42-inch LCD television. Take it with you wherever you go and let the fun follow.

Features

- 16:9 wide screen display (854x480 native resolution)
- Built-in speaker
- LED light source for excellent color and a long lifetime of over 20,000 hours
- Versatile VGA and audio/video inputs mean you can connect the PT100 to:
  - •Video game consoles*
  - •Computers
  - •DVD players
  - •Cable and Satellite receivers
  - •Digital still and video cameras
  - •VCRs
