Optoma TW766W

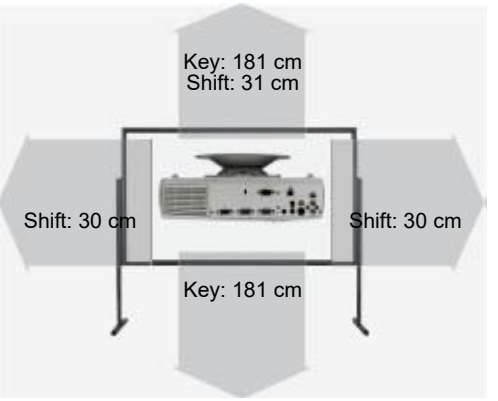

Brief Introduction Beta 2.5	The TW766W BrilliantColor DLP has 4000 Ansi-Lumen, a contrast of 2500:1 and a WXGA 1280 x 800 resolution. Includes a lens shift and keystone correction function, which provides freedom during installation. The projector can illuminate a screen width of up to 643 cm thanks to its 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Playing 1080P is also no problem for the projector. It was launched in 2009 and is no longer offered by the manufacturer Optoma.
