

Optoma TX635 3D

OPTOMA TX635 3D

A brief introduction to the Optoma TX635 3D. The standard portable DLP projector has an XGA 1024 x 768 resolution and a contrast of 10000:1. As the TX635 3D is equipped with a microphone jack plug and 10W speakers, no additional audio system is required for presentations or training courses. The projector can illuminate a screen width of 515 cm well. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 343 cm here. Furthermore, the projector can play 1080P without any problems. The operating noise of just 30 decibels makes the projection quiet. The projector was launched in 2012 and is no longer sold by the manufacturer.

Brief Introduction

Beta 2.5
