

Optoma TX779

OPTOMA TX779

The Optoma TX779 model is a DLP projector with XGA 1024 x 768 resolution and a contrast of 3000:1. 4500 Ansi lumens ensure that a picture width of 584 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 389 cm. Furthermore, the projector can play 1080P without any problems. With only 30 decibels of operating noise, the model is already very quiet compared to others. This model is no longer offered by Optoma.

Brief Introduction

Beta 2.5

Display Type

1 x 0,7" DLP Chip
XGA 4/3 Ti Digital Light Processing Chip
