Optoma UHZ67

EAN/UPC:5055387669727

A brief introduction to the UHZ67: The Optoma 3D Laser DLP projector offers 4,300 ANSI lumens, a contrast ratio of 500,000:1 and a UHD (4K2K) resolution of 3,840 x 2,160. Thanks to its laser technology, the projector has a lamp life of up to 30,000 hours, which would equate to over 20.5 years based on 4 hours? viewing per day. It includes a built-in media player that allows files to be played directly. Horizontal and vertical keystone correction ensures that setting up the image is child?s play. With 4,300 ANSI lumens, an image width of up to 643 cm is possible. In rooms with ambient light, the projector performs best with a narrower image width; we would recommend a maximum of 429 cm. The model optionally supports AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). The projector also has no problem playing 1080p, 4K and 3D content, meaning it can support all currently available Blu-ray formats.

Brief Introduction		
Beta 2.5		
Display Type	1 x 0,55" DMD DLP Chip HDTV 16/9 Ti Digital Light Processing Chip	
Ansi-Lumen	Projector: 4300	Screen: 1911 Lux (200 cm Screen width)
