Optoma WU470

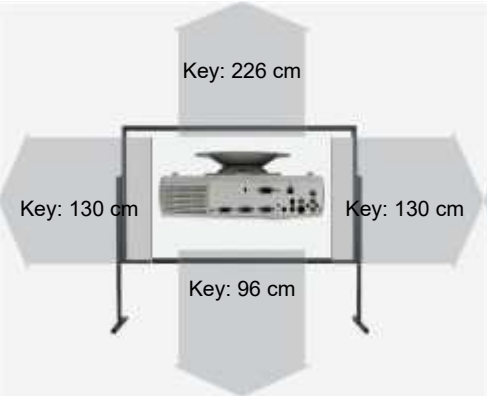

Brief Introduction Beta 2.5	Manufacturer Optoma offers the WU470, a DLP projector with WUXGA 1920 x 1200 resolution and a contrast ratio of 20000:1. Horizontal and vertical keystone correction provides flexibility when setting up. An image width of up to 718 cm is possible; if the image width is smaller (we recommend max. 479 cm), even rooms with residual light are no problem. A smartphone with an MHL connection can be connected directly to the MHL/HDMI port for 1080p/60 Hz image mirroring (screen mirroring). The projector can also handle 1080P and 3D video signals with ease. Compared to other projectors, it is very quiet with an operating noise of 29 decibels. Launched in 2018, this model is no longer available from the manufacturer Optoma.
