OPTOMA ZH606-W

Brief Introduction Beta 2.5	The Standard Portable ZH606-W 3D Laser BrilliantColor DLP has 6000 ANSI lumens, a contrast ratio of 2000:1, and HDTV 1920 x 1080 resolution. The manufacturer specifies a laser life of 20,000 hours, which equates to over 13.7 years at 4 hours per day. Horizontal and vertical keystone correction ensures easy image setup. The projector is equipped with a microphone jack and 10W speakers, so no additional speakers are required for presentations or training sessions. A picture width of up to 787 cm is possible thanks to the projectors 6000 ANSI lumens. The projector can handle rooms with residual light with a smaller picture width; we would recommend a maximum of 525 cm. The HDMI MHL (Mobile High-Definition Link) port enables 1080p/60 Hz screen mirroring from a smartphone while it is being charged via the connection. Furthermore, it is Full HD 1080P and 4K (compressed) as well as 3D compatible, meaning that all currently available Blu-ray formats can be recognized by the projector. The model was manufactured by Optoma in 2019 and is no longer current.
