Optoma ZK507 / -W

The Optoma model ZK507 / -W is a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 300000:1. The manufacturer Optoma specifies a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The integrated lens shift gives freedom when positioning the projector. Thanks to the brightness of 5000 Ansi lumens, a picture width of 718 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 479 cm). Furthermore, it is Full HD 1080P and 4K as well as 3D compatible, meaning that all currently available Blu-ray formats can be recognized by the projector. The projector is very quiet compared to others with an operating noise of 30 decibels.
