OSCAL P15

The OSCAL P15 LED LCD projector has 100 ANSI lumens and an HDTV 1280 x 720 resolution. Thanks to its LEDs, the projector has a light life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. An image width of up to 32 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 21 cm. Playing 1080P is also no problem for the projector.
