

OTHA C900S

OTHA C900S

The C900S 3D DLP has 300 Ansi lumens, a contrast of 5000:1 and a WSVGA 960 x 540 resolution. The integrated media player can play files directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. A picture width of up to 176 cm is possible. However, the image should be smaller in room light. We recommend max. 117 cm. Thanks to the built-in 8000mAh Li-battery, no power supply is required, which means that the projector can be set up quickly and flexibly. The projector has Airplay and Miracast screen mirroring support, which allows you to play videos in high resolution and surround sound directly from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. The model is also Full HD 1080P compatible.
