Panasonic PT RW630 /L/B/W

With the PT RW630 /L/B/W, manufacturer Panasonic offers a DLP laser projector with WXGA 1280 x 800 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. Includes a lens shift and keystone correction function, which provides freedom during installation. 787 cm image width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 525 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Playing 1080P is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360Â° projection. This model is no longer offered by Panasonic.

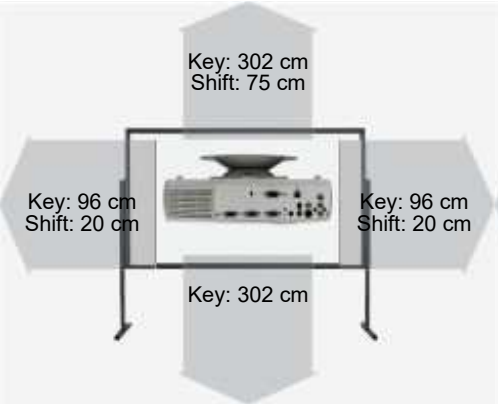

Brief Introduction
Beta 2.5

Display Type	1 x 0,65" DLP Chip WXGA 16/10 Ti Digital Light Processing Chip	
Ansi-Lumen	6000	2400 Lux (bei 200 cm Screen)
Contrast	-	-
