PANSEBA AK69

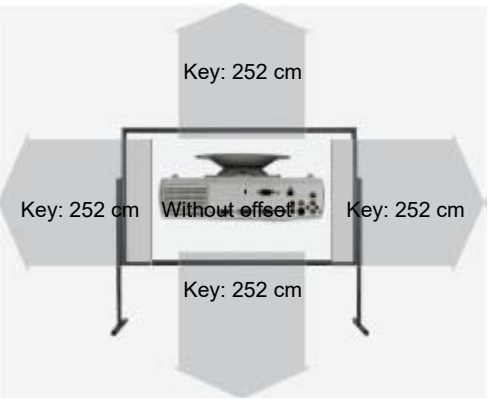

Brief Introduction Beta 2.5	The PANSEBA model AK69 is an LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 10000:1. Manufacturer PANSEBA indicates a lifespan of 30000 hours, which would be over 20.5 years at 4 hours daily. With the integrated media player, files can be played directly. Horizontal and vertical keystone correction makes it easy to set up the image. An image width of up to 176 cm is possible. However, the image should be smaller if there is room light. We recommend a maximum of 117 cm. The built-in 2600mAh battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. The projector has Chromecast, Airplay, Miracast Screen Mirroring support, which allows high-resolution video and surround sound to be played directly from smartphones, tablets and PCs running Android, Windows or iOS over Wi-Fi. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P compatible. The projector is quiet, with an operating noise of only 25 decibels.
