Highlights

LED-Technology
Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix pocket projector uses high quality LED technology to project your pictures and videos in brillinat colours and breathtaking contrast.

Direct Video connection
Connect your iPhone, iPad, iPod, Camcorder, Gaming console or any other video devices and project all your content directly with your PicoPix on a big screen.

Integrated MP4 Media player
The integrated MP4 Media player supports all common video and audio formats.This makes the PicoPix pocket projector a standalone device, retrieving its content from the internal 2 GB memory, USB stick or a micro SD card.

USBQuickLink
For those who want to share content directly from their camera, smartphone or USB Stick the USBQuickLink is the easiest connection to all these devices. On the go just stick the USB plug and socket together and use the USBQuickLink as a handle.

Video Streaming
Share your Notebook screen showing your Media- or Webcontent like YouTube videos or Party pics with those around you. Just connect your PicoPix to the PC or Notebook via USB and start projecting.
