The Philips Neopix 156 LED LCD projector has 150 ANSI lumens, a contrast ratio of 1000:1 and an HDTV resolution of 1280 x 720. The manufacturer, Philips, specifies a lifespan of 30,000 hours, which, based on four hours? viewing per day, would equate to over 20.5 years. Thanks to its 150 ANSI lumens, the projector can effectively illuminate a screen width of up to 161 cm. However, in room lighting conditions, the screen width should ideally be less than 107 cm. As the projector recognises AirPlay, Miracast and screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. The model is also compatible with Full HD 1080p.
