With the NeoPix 950 Smart, Philips offers a standard portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 1100:1. Thanks to its LEDs, the projector has a specified light life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. The projector also offers an integrated media player that allows files to be played directly. As the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. The projector can illuminate images up to 380 cm wide thanks to its 1400 ANSI lumens. However, in room lighting, the image width should ideally be less than 253 cm. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. Since the projector recognizes DLNA and screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
