Plus V1100Z

PLUS V1100Z

Brief Introduction Beta 2.5	The Plus model V1100Z is a DLP projector with XGA 1024 x 768 resolution and a contrast of 2000:1. The horizontal and vertical keystone correction provides scope when setting up. 275 cm picture width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 183 cm. At just 27 decibels, the device is one of the quieter projectors. The projector is no longer sold by the manufacturer. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
