BOXLIGHT Introduces New Home to Office (H₂O) Projector
Lightweight and Ultra-Portable the XD-16n is an exceptional value for the traveling presenter or home theater enthusiast

Poulsbo, WA—**BOXLIGHT** the first name in digital projectors, is proud to announce the **XD-16n**—an extraordinarily bright and lightweight multi-talented XGA projector that works flawlessly both on the road and at home. Packed full of features and reasonably priced, this projector is perfect for both the presentation executive and home theater enthusiast in search of the latest technology.

Featuring **true 1024x768 XGA resolution, 1200:1 contrast ratio** and **1400 ANSI lumens** the XD-16n projects a clean, crisp image every time. Weighing only **3.8 lbs (1.7 kg)** and constructed with a **lightweight, durable magnesium alloy body** this projector is ideal for the traveling presenter.

Instead of a standard color wheel, the XD-16n is equipped with a unique **color drum**. Color drum technology allows for a thinner projector, as well as a higher contrast ratio and lower noise level than a unit that employs a color wheel.

FCC Class B certified, the XD-16n is engineered to be used in the home without interfering with home electronics. And the Faroudja DCDi™ video technology ensures superior video images. Small enough to carry from the office to the home, you can work on your professional presentations at home or just kick back for an evening of big screen entertainment.

Whether at work, on the road, or at home, this projector is a breeze to set-up and operate. Here are a few of the many features the XD-16n has to offer:

- **Crystal Clear Image:** True 1024x768 XGA with compression for 1280 x 1024 SXGA results in a crisp and clear image directly from the computer.
- **Ultra-Portable:** Made with a durable magnesium alloy body and weighing a mere 3.8 lbs (1.7 kg) this projector is ideal for the traveling presenter.
- **Color Drum:** Allows unit to be small, exceptionally clear, and ultra-quiet.
- **Faroudja DCDi™ technology:** Creates smooth, lifelike video images.

- **Present with the lights on and the shades up:** 1400 ANSI lumens make this projector bright enough for almost any room.
- **Create a square image:** With digital keystone adjustment a square image can be created on the screen in virtually any environment.
- **Sharp image:** 800:1 contrast ratio delivers a crystal clear image with great color depth.
- **Enlarge specific details:** Digital zoom imaging can easily enlarge a section of the screen.
- **Simplicity:** Control your presentation and the projector from one laser remote mouse.
- **Easy set-up:** Manual zoom/focus makes it easy to adjust the screen size to adapt to any room environment and the auto image function button on the remote allows the XD-16n to immediately lock onto the signal, making set up quick and easy.
- **HDTV/EDTV compatible:** Compatible with 1080i, 720p HDTV and 480p EDTV standards.
- **Focus the audience's attention on the speaker:** Blank the screen with just one touch of a button with the blank image function on the remote.

The BOXLIGHT XD-16n is a quality home to office projector packed full of features and amazing versatility. Most importantly it delivers a bright, crisp and clear image along with the convenience of being lightweight and easy to operate.

BOXLIGHT is the first name in digital projectors with more experience and selection than anyone in the industry. Selling display and projection technology under its own brand of BOXLIGHT certified equipment, the company also offers the most innovative, high-quality products from InFocus, Hitachi, Proxima and Epson.

BOXLIGHT offers one of the best service and support packages available with a 15-day money back guarantee, two-year parts and labor warranty and a 120-day or 500 hour (whichever comes first) lamp guarantee. This is coupled with lifetime 24-hour technical support on all of its branded products.

Founded in 1985, BOXLIGHT operations have expanded to encompass sales in the United States, Mexico, Canada and worldwide. The company also offers a convenient Web-based leasing program with low monthly payments, flexible terms, and purchase options.

Projector specifications, photographs, prices and additional information regarding BOXLIGHT products and services are available on-line at www.boxlight.com or by calling (800)762-5757 (USA) or +1(360)779-7901 (International).
