Pyle PRJD901

PYLE PRJD901

Brief Introduction Beta 2.5	The standard portable Pyle PRJD901 LED LCD projector has 132 Ansi lumens, a contrast of 1000:1 and a VGA 640 x 480 resolution. The manufacturer specifies an LED service life of 50,000 hours, which is over 34.2 years with a daily viewing time of 4 hours. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. As Pyle specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 100 cm is possible. In room light, however, the image should be smaller. We recommend max. 67 cm. This model is no longer available from Pyle.
