

QVWi QV3000

Q V W I Q V 3 0 0 0

Brief Introduction

Beta 2.5

The QVWi QV3000 LED LCD projector has 1,500 ANSI lumens and an HDTV resolution of 1,920 x 1,080. It is an LED projector with a lamp life of 30,000 hours, which equates to over 20.5 years if used for four hours a day. The horizontal and vertical keystone correction provides flexibility when setting up the projector. Thanks to its 1,500 ANSI lumens, the projector can effectively illuminate an image width of up to 393 cm. However, in well-lit rooms, the image width should ideally be less than 262 cm. As the projector recognises AirPlay, Miracast and screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Furthermore, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. Furthermore, the projector can play 1080p and 4K (compressed) content without any issues. Compared to other models, the projector is very quiet, with an operating noise level of 28 decibels.
