

Roly RL-6200WT

ROLY

LASER

Brief Introduction

Beta 2.5

The short-throw RL-6200WT laser LCD has 6000 ANSI lumens, a contrast ratio of 3500000:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies a laser lifespan of 200,000 hours, which is over 13.7 years at four hours a day. The built-in lens shift and keystone correction function provides freedom when adjusting the projection. Since it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector only needs to be 136 cm away from the screen. Furthermore, the projector can play 1080P without any problems and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection.
