

Roly RL-M85Q

ROLY RL-M85Q

The Roly RL-M85Q stationary laser LCD projector has 8500 ANSI lumens, a contrast ratio of 5000000:1 and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer states a laser lifespan of 200,000 hours, which would be the equivalent of 13.7 years at 4 hours a day. The projector can be set up in a wide range of positions thanks to the horizontal and vertical keystone correction. An image width of up to 937 cm is possible. If the image width is smaller (we recommend max. 625 cm), rooms with low light are no problem. Furthermore, it is Full HD 1080P and 4K compatible.
